c. Reported it now appeared that vacancies for clerical personnel would be filled by April 1954. In connection with personnel, Colonel White said we were about to be faced with a trying situation in attempting to place personnel being returned to Headquarters as a result of reduction

[redacted] particularly in view of the personnel freeze. Colonel White said this replacement problem had been made infinitely more difficult by the fact that Efficiency Reports were uniformly "Good" and thus created an additional problem in selecting personnel to be retained and/or making a place for them at Headquarters by releasing Headquarters personnel. The Director stated he realized the seriousness of this situation, but it was one which would have to be faced. However, he did desire that action be taken to provide for the exercise of greater care and thought in the preparation of Efficiency Reports in order to reduce the difficulties arising when it becomes necessary to release personnel. As a result of this discussion, Colonel White and Mr. Kirkpatrick undertook to revise the regulations on the preparation of efficiency reports, and in addition Colonel White stated he intended to discuss this whole problem at greater length with General Cabell the first of next week.
